ANNEX 2

Models to be photocopied to make the gauges

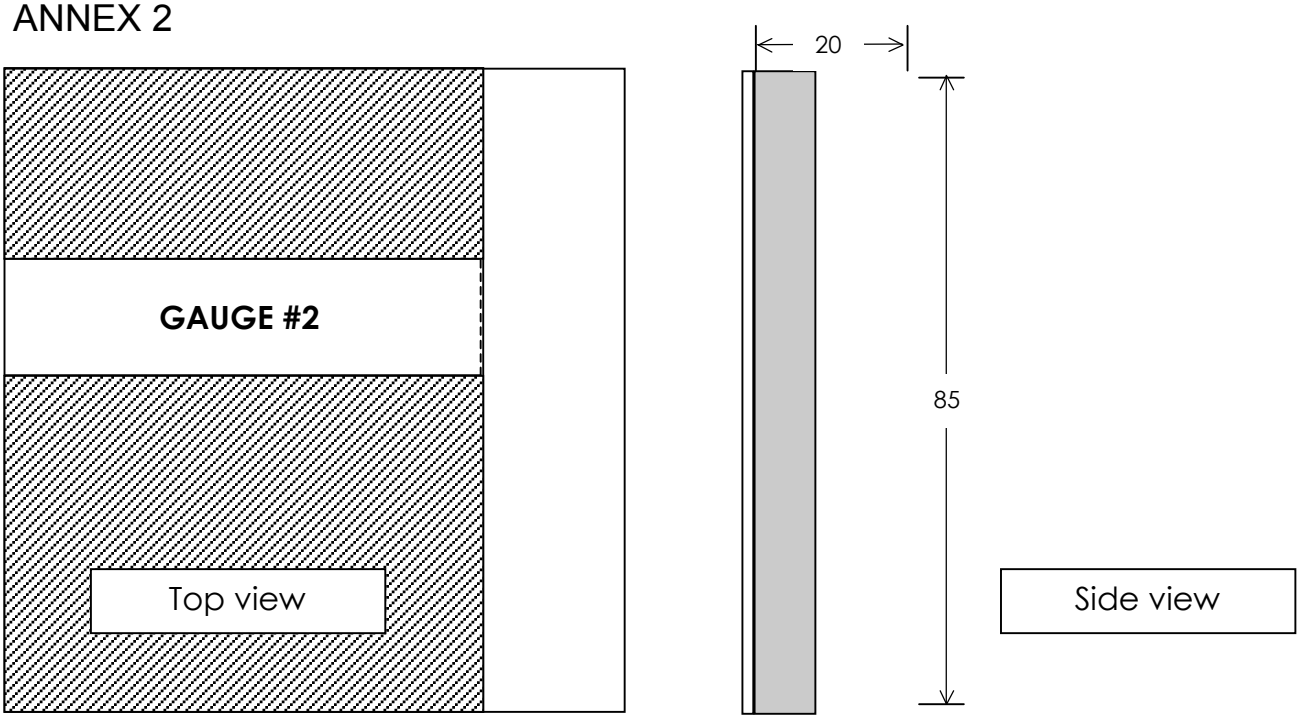

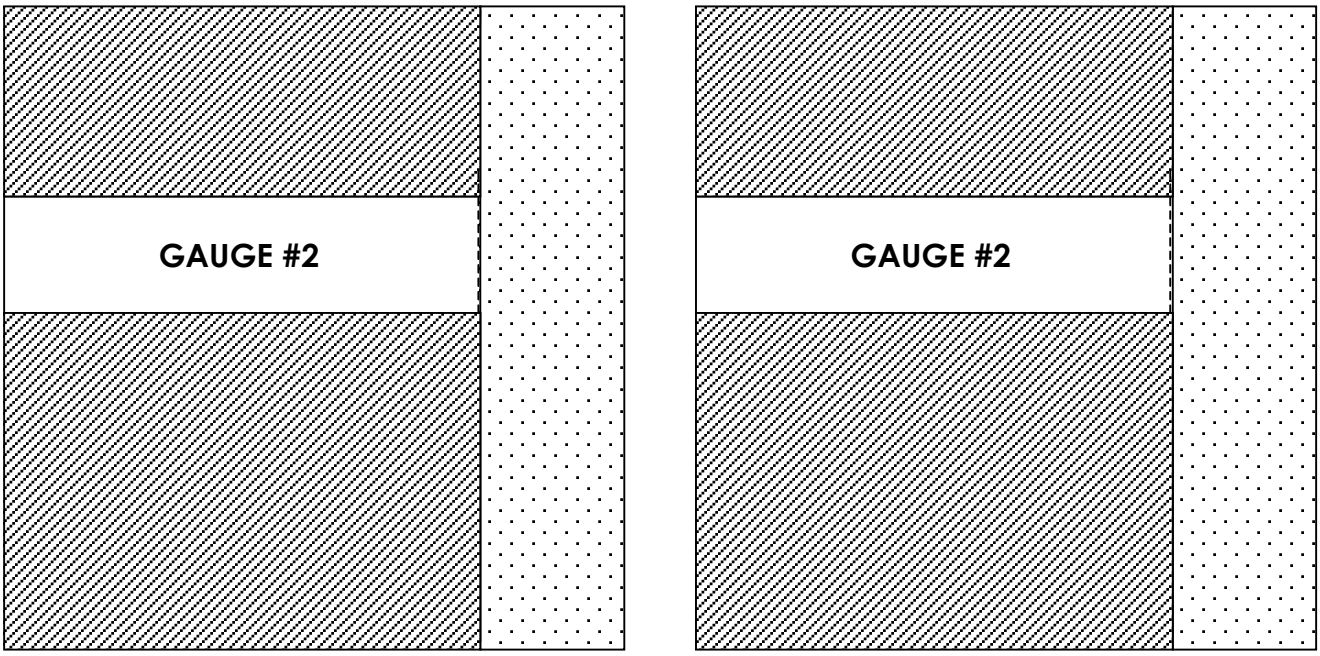

MAKING THE GAUGE

1. Photocopy the model;
2. Glue the model on a 1 mm thick stiff cardboard;
3. Make the 4 holes with a "scrapbooking" punch or with a drill;
4. Cut the 2 - 8 mm thick strips of wood: one 19 mm X 150 mm and another of 19 mm X 30 mm;
5. Glue the 2 strips like the gauge drawing (grey part).

ANNEX 2

Models to be photocopied to make the gauges

MAKING THE GAUGE

1. Photocopy the model;
2. Glue the model on a 1 mm thick stiff cardboard;
3. Cut the 2 crosshatched rectangles using a utility knife;
4. Cut a strip of 8 mm thick wood (19 mm X 85 mm);
5. Glue the wood strip under the dotted lines according to the gauge drawing.
