ANNEX 3

Technique for punching a hole in the connecting rod (straw)

I place my straw on the martyr.

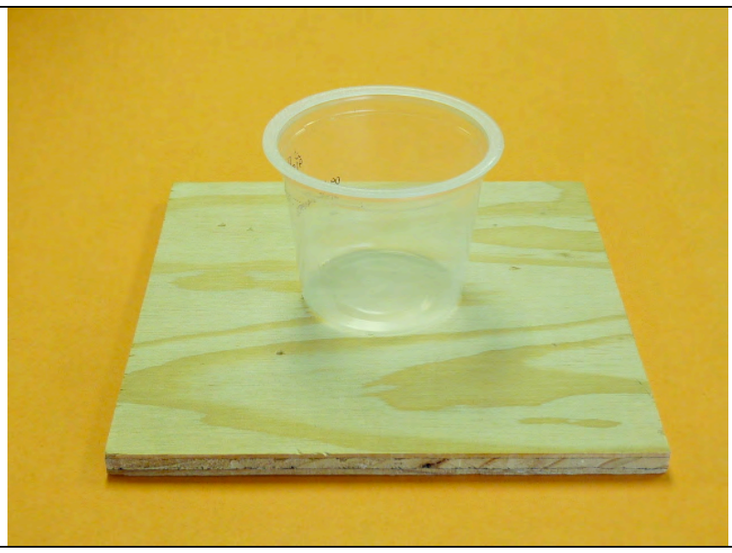

I position the nail where I want to punch a hole in my straw.

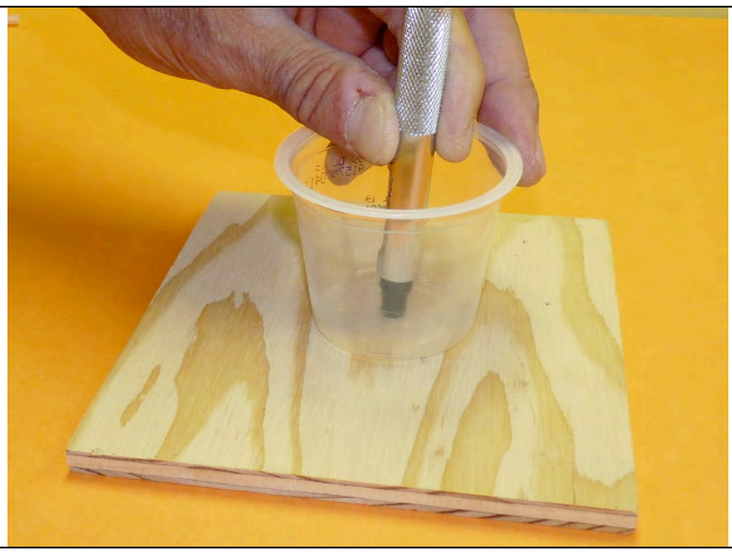

I tap the nail with the hammer.

Technique for punching a hole in the bottom of a container

I place the bottom of my container on the martyr.

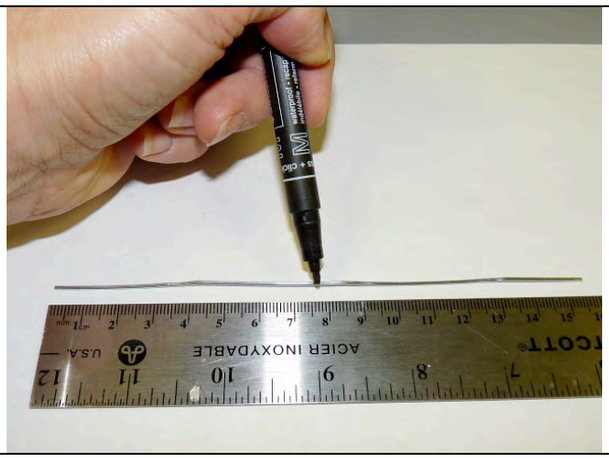

I position the punch in the bottom of the container, at the spot where I want to make the hole.

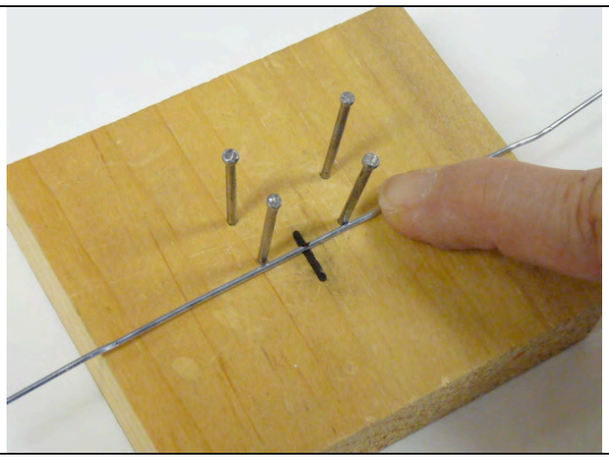

I hit the punch with the hammer.

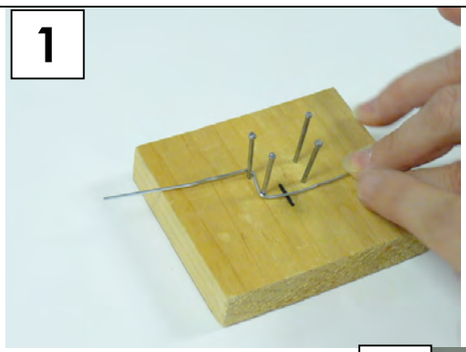

Technique for folding the crankshaft

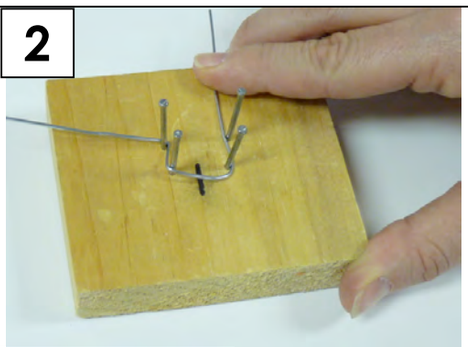

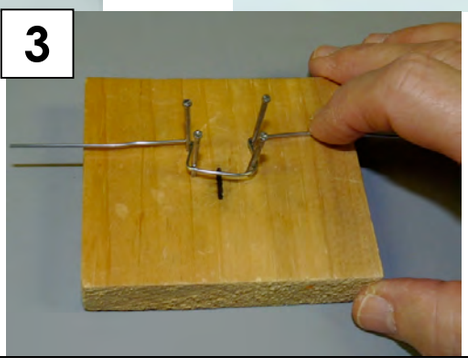

I find the center of my paper clip.

I position the center of the paper clip even with the mark on the folding template.

I fold my paper clip using the nails in the folding template.
